

Impact Report

Summer, 2019

Community Engagement

An engaged community is a thriving community. We host regular community meetings, knock doors, and talk to our neighbors to ensure that everyone knows about what's going on in our neighborhoods.

Resource Counseling

We believe that healthy neighborhoods are filled with strong, stable families. In partnership with Park Central Development, we are offering free one-on-one resource counseling services

Investment

We are working to compliment investments in our community with investments in our most vulnerable residents. This year marks year 1 of a multi-year partnership with Rebuilding Together-St. Louis to provide new, dedicated home repair services for long time home owners in Fountain Park and Lewis Place.

Park Place Housing & Economic Development was created to serve the communities of Fountain Park and Lewis Place. Our mission is to promote healthy, mixed income communities where everyone has an opportunity to thrive. Learn more at:
